		arbles. Dahlia gave does Hank have?	e him 2 more marbles. How	
	Mathematical sentences: $6 + 2 = 8$			
	COUNT	Count all the num	bers and list it such as:	
	ALL	1 ,2 ,3	3 ,4 ,5 ,6 ,7 ,8	
		The total number	of marbles that Hank has is 8	
	LONG		ition problem by adding the	
	METHOD	number that is, wl	nich we will get.	

Then, if there are numbers on the left, continue adding as before. We write the answer as below. **Pandai** Subtract within 100 **Subtract within 100 COUNT BACK STEPS** 40 41 42 43 44 45 **USING LONG METHOD** 59 - 28 31 Keyword for subtraction operation (-) question Find the difference Find the subtraction ...what is left Find the balance **Example Question and Two Solutions** Siti has 6 marbles. Siti gave Amir 2 marbles. How many marbles does Siti have left?

COUNT BACK STEPS	Count all the numbers and list it such as: 6, 5,4
	The remaining number of marbles that Siti has left is 4.
LONG METHOD	We solve this subtraction problem by subtracting the number that is, which we will get.
	Then, if there are numbers on the left, continue subtractiong as before.
	We write the answer below.
	6
	_ 2
	4
